Welcome

Welcome in the heart of the European Union!
Welcome in Belgium! Welcome in Brussels!
Welcome to the Erasmus Brussels University
of Applied Sciences and Arts.

Erasmushogeschool Brussel (EhB) is a higher education institution located in and around Brussels. We offer a wide range of professionally oriented programs at the associate and bachelor degree level as well as bachelor and master degree programs in the arts within our Film & Theatre Institute (RITCS) and our Music Conservatory (Koninklijk Conservatorium Brussel).

We strongly believe in the power of an international experience as an excellent way to grow personally and professionally.

This brochure is the first step in your international adventure. You will find more information about Brussels, EhB and the possible exchange programmes.

Should you have further questions after reading this guide, please do not hesitate to reach out.

Looking forward to meeting you in Brussels!

International Office Team
Annelore, Karen, Ezra & Emeline

Facts & Figures about Brussels

Brussels is not only home to the headquarters of the European Union, but also to NATO (North Atlantic Treaty Organization) and over two thousand multinationals. While the city is very vibrant and cosmopolitan, it also has a village-like vibe to it. Each district has its unique character and the city has a way of making everyone feel welcome, with a chill atmosphere and locals who do not take themselves too seriously.

Some of the better known neighbourhoods are Matonge (where you can get a taste of Central Africa), Marollen (check out their daily flea market), the European district (go there for after-work drinks on Thursdays), Louizalaan and Guldenvlieslaan (two big shopping avenues), Zavel (with its more luxurious boutiques, food shops, and antique market), Laken (go there to visit the royal gardens) and Heizel (where the Atomium is located).

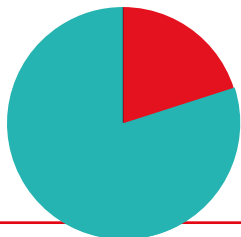

Brussels is home to

182 different nationalities

108 different languages are spoken

**1,2
million**

Population of Brussels

Of which around
30% is foreign

Brussels is multilingual

Salut!

Belgium has three official languages: Dutch, French, and German

Hi!

The Brussels region is officially bilingual French-Dutch, but you will find more people speaking French

Tschüss!

Because of the international character of the city, most people understand and speak English

Brussels is only a train ride away from the neighboring capitals

- 2hrs to London
- 1h30min to Paris
- 2hrs to Amsterdam

Brussels is located centrally in Belgium

visit.brussels/en

Green City

If you take the time to explore, you will find that Brussels offers a lot more green spaces than you would imagine at first sight. This is because only 10% is found in the city centre. However, the green spaces in the suburbs are very accessible by metro and other means of transportation. So take the time to venture out and absorb some fresh oxygen!

- Brussels has over 8.000 hectares of green spaces
- In the form of parks, woodland, the Forêt de Soignes, cemeteries, and sports fields
- The green spaces cover half the region in total!

be.brussels/en

Vibrant Student City

Brussels houses a large number of students and institutions. Next to Brussels having a big party scene, there are also plenty of activities organized for students by the different institutions and there are various study spaces in community centres and libraries for students who prefer studying in a group. Brussels is home to:

- 100.000 students
- 5 Universities and around 25 higher education institutions

Brussel Brost

Brussel Brost is a free student festival kicking off the academic year in Brussels! The festival is organized on the last Thursday of September and allows the students to dance their way into the new academic year.

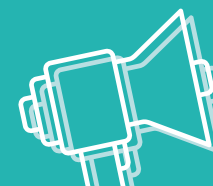

Brussel Brost described by the organizers (Brik):

"The best beats and bands, a refreshing drink and good food, and thousands of enthusiastic students: what else do you need to kick off your year in with a bang?"

Student neighbourhoods

Brussels has not just one, but several student neighbourhoods. Each has its own strengths. The online student guide of Brik tells you more about the city centre, the Canal zone, Vorst, Elsene, Jette and Schaerbeek.

Studying at EhB as an international student

Welcome Days and Survival Dutch

At the start of the academic year, we organise a Survival Dutch course for all incoming exchange students. During this 10-day course, we dive into the Dutch language and Belgian culture. It is a perfect way to start your exchange!

During the Welcome Days, you will get additional practical information concerning your stay in Brussels, and we will take the time to get to know each other and explore the city together.

***"It was a great experience that immensely enriched my first weeks in Brussels."** - international student*

Academic Calendar

Fall semester: September 22, 2025 - January 30, 2026

- Survival Dutch(*): September 1 - September 12 2025
- EhB Welcome Days: September 15 & 16, 2025
- Fall holidays: October 27 - November 2, 2025
- Winter holidays: December 22, 2025 - January 4, 2026
- Exam period: January 5 - January 30, 2026

(*) We strongly recommend students coming in the fall semester to participate in the Survival Dutch course.

Spring semester: February 9 - June 26, 2026

- Welcome Day: February 6, 2026
- Course period: February 9 - May 29, 2026
- Spring holidays: April 6 - April 19, 2026
- Exam period: June 1 - June 26, 2026

Student services

We have made our student support services readily available on

each of our campuses to create easy access and contribute to students' comfort and sense of well-being.

HOUSING

To assist our students with finding housing options, we work closely together with Brik. Brik is the service desk for students in Brussels. Aside from housing, they also provide help in mobility, city life and events.

Van Orley International Student House

- A one-of-a-kind residence in the historic centre of Brussels where Brik offers short stays for students. Apply via brik.be/en/van-orley

Private market

- Via [MyKot.be/en](https://mykot.be/en) you will find more than 3000 student rooms available on the private market. Brik carries out regular checks on these rooms.

CULTURE

We have our very own student café: RITCS café

- It is not only a student bar with cheap prices
- But also a cultural bar with live music, a cinema, board game nights, debates,...

Erasmus Student Network (ESN)

- ESN is the main student organisation in international higher education in Europe.
- You can join the local ESN VUB EhB Brussels chapter to participate in their activities like city trips, escape rooms, karaoke,... and get access to discounts with their partners. Follow them on Instagram: [esn_vubehbxl](https://www.instagram.com/esn_vubehbxl)
- Join ESN's Buddy Programme to make Belgian friends even before your arrival! <https://www.esnvubehb.org/buddy-programme>

MENTAL SUPPORT

There are both individual support services (student counselor) and Online Self-help services (MoodSpace) available for students who need mental support.

RESTAURANTS

Restaurant facilities can be found on every campus. The offer depends on the campus and facilities in the kitchen.

Landscape and Garden Architecture

Landscape architects design gardens, green and urban spaces and landscapes, in a sustainable and climate-conscious way. To train our students, we use design and research as creative standards for developing conceptual, implementation-ready or policy-based design proposals. We teach students how to organise and design both natural and man-made elements using scientific and intuitive means. The outcome of any project, regardless of scale, must meet the requirements of usability, spatial and visual quality and sustainability. You will not just learn to design in a studio. During our workshops, you will get to work on projects and real cases. We would like to invite you to participate in these projects. You can also combine your exchange study programme with a traineeship in the following semester.

We advise all students applying for the exchange programme to send their portfolio to Erik Van Mullem (erik.van.mullem@ehb.be).

Biomedical Laboratory Sciences

To train our health care professionals we use evidence-based teaching methods and have a hands-on approach. Students in biomedical laboratory sciences develop their skills and professional attitude during the many practical lessons in our own labs or in one of the medical or research labs we collaborate with. An international internship can be combined with 1 or several courses if desired. Important note: Taking other courses than the ones listed below as an exchange student is not possible for biomedical laboratory sciences since Dutch is the main teaching language (unless a B2-language level is obtained).

Table: programme timing in Fall (F) and/or Spring (S) semester + credits

Midwifery

In our midwifery education programme, we train our students to become critical, competent midwives who are socially engaged. Our students learn to take an advocacy role for the mother, the newborn, their family and their surrounding network by offering quality and personalised care. Within an international and evidence-based mindset, we prepare our future midwives for the profession in a complex reality.

The focus of the programme is promoting physiology, woman-centred care and developing a correct professional identity within a dynamic, metropolitan and international context.

Table: programme timing in Spring (S) semester + credits

Course names	F	S
Midwifery in an International and Intercultural Context	14	14
Case Studies in an International Context (BIP)		3

ehb.be/en/programmes/midwifery

Nursing

To train our health care professionals, we use evidence-based teaching methods and have a hands-on approach. To be optimally prepared for subsequent traineeships in real medical settings, student nurses, midwives, doctors, and specialists train essential competencies in our Skills and Simulation Center, a lifelike yet safe simulation environment.

We are happy to invite you to do an internship in Nursing, through the Erasmus+ exchange programme! There are possibilities both in the fall and in the spring semester. We try to do everything possible to offer you an internship in your preferred field such as surgery, paediatrics, psychiatry, geriatrics, ...

Applied Information Technology

We prepare students to work in the core areas of ICT such as network and cloud infrastructure, software development, business IT, Artificial intelligence (AI) and cybersecurity. Our courses are constantly evaluated in consultation with the professional sector and are therefore guaranteed to be up-to-date!

By blending theoretical and practical knowledge, students develop analytical thinking and project management skills.

On our campus, you will find a BusinessLab, FabLab, MediaLab and AI-Lab. We are also recognized and certified as Cisco Academy and have a state of the art Network Lab. You can use these labs for your projects and assignments or just to experiment to your heart's content.

Communication

Exchange students are hosted in the 3 BA degree programme of Communication together with the Belgian students. The BA Communication has a broad scope in its field of study, organized in modules around a specific communication theme, integrating different disciplines, languages & IT skills. Teamwork, problem-based case studies and real company briefings are essential to this programme.

The underlying philosophy in Communication is geared towards empowering students as individuals while acquiring strategic, creative and management skills.

Erasmus Belgica students can choose courses from both lists below.

Table: programme timing in Fall (F) semester + credits

Courses in English	F
Corporate Communications*	5
Communication and Innovation*	4
Professional English 3	3
Professional Project: The Agency 3*	6
Digital Content	3

Journalism

The underlying teaching philosophy in Journalism at EhB is geared toward empowering students as individuals while acquiring strategic, creative, and management skills. The programme has a broad general scope in its field of study, thus preparing students to work in various types of organizations. Teamwork, problem-based case studies, real company briefings, and various work placements are essential to these programmes. Our graduates are quickly employed upon graduation.

Idea and Innovation Management

The package of courses (amounting to a possible totality of 30 credits) is specially tailored to allow incoming international exchange students the opportunity to obtain a flavour of the programme, of innovation in a broader Belgian context, and of expanding their professional network. Upon return to their home institutions, students will feel empowered with new knowledge, new experiences, new approaches to existing (world) problems, and an overall sense of innovative completion.

Incoming international students will also partake in the annual 2-day visit to the world-renowned Dutch Design Week in Eindhoven (the Netherlands), usually in the last week of October. Aside from exploring the exhibitions, workshops, seminars, and events organised by the Dutch Design Week itself, students will have the opportunity to apply course-taught information through course tasks.

It is equally possible to combine the exchange study programme with an internship and apply for a full academic year!

Table: programme timing in Fall (F) semester + credits
+ Spring semester if combined with internship. Doing an internship in the Spring semester is on request and acceptance by the programme only.

Organisation and Management

Exchange students are hosted in various courses within our BA degrees of Organisation and Management. You take your courses together with Belgian students in an all-round programme with broad practical experience in the cosmopolitan context of Brussels and beyond. You will be given every opportunity to discover and valorise your strengths. A passionate team of teachers will coach you to shape your programme in a personal way.

For more information on the specific courses offered for this exchange programme, please consult the courses and credits below. Make sure to verify the language requirements for the different courses since some are taught in English while others are only taught in Dutch.

Hotel Management

The underlying teaching philosophy in Hotel Management at EhB is geared towards empowering students as individuals while acquiring strategic, creative, and management skills. The programme has a broad general scope in its field of study, thus preparing students to work in various types of organizations. Teamwork is essential and the curricula are strongly embedded in the professional field through guest lecturers, a boot camp, and internships. It is equally possible to combine the exchange study programme with an internship and apply for a full academic year!

Professional dress code (black or dark blue suit, white shirt/blouse, and dark shoes) are required when visiting companies and receiving guest speakers from the hospitality sector.

Social Work

At EhB, choosing a study programme within social sciences stands for hands-on practical training. Students will learn through training, exercises, group assignments, visits, and, of course, internships. Brussels is a cosmopolitan city where many cultures and nationalities converge. This offers countless opportunities but also many social challenges - an ideal laboratory for a social worker in training.

We are happy to invite you to do an internship in Social Work, through the Erasmus+ exchange programme! Important note: Taking courses as an exchange student is not possible for Social Work since the entire programme is taught in Dutch.

Language proficiency: fluent (at least B2) in Dutch, French or English.

NEW!

International Project Semester on Social and Spatial Justice

Are you ready to elevate your academic journey and contribute to Social and Spatial Justice? Join our International Social and Spatial Justice Project Semester and immerse yourself in a transformative experience that seamlessly blends innovation driven education with real-world practice.

Engage with students from around Europe and broaden your horizons with new perspectives. Dive into transdisciplinary projects that challenge you to think creatively and critically, fostering innovative learning. Gain practical skills through internships and workshops that prepare you for a successful career, while experiencing the vibrant, multicultural city of Brussels and developing a deeper understanding of diverse societal issues. The programme includes exploring complex societal themes through the more academic Social and Spatial Justice module, developing transdisciplinary skills and collaborating on innovative solutions in the very hands-on Skills Lab, and applying your knowledge in real-world settings through the Internship module, enhancing your specific professional competencies, based on what your home institution trains you for.

Join the International Project Semester and make a lasting impact on society! Apply now to be part of a community that shapes the future! For more information, visit our website or contact the International Office. Due to our innovative approach, the programme has a limit of 15 participating students.

Courses in the spring semester:

- Social and Spatial Justice 6 ECTS
- Skills Lab 6 ECTS
- Internship 18 ECTS

Transdisciplinary and Education Programmes

Come and discover how you, as an educator, social worker, (pedagogical) coach, and pedagogue,... can use the multicultural and metropolitan context to enhance the lives of children and youngsters in a super-diverse city.

Through practice-based projects and internships, you will get a closer look at the diverse reality of Brussels. You will encounter a broad range of organizations in the field of education, welfare, family support, culture, and youth. The voice and perspective of children, youngsters, and educators working in the field will be the guiding force throughout the programme.

Wandering through the metropolitan city of Brussels you will be immersed in cultural education and learn the importance of public perception, qualitative interactions, multilingualism, and coaching, all the while focusing on 21st-century skills. Skills that will give you the ability to respond innovatively and creatively to this ever-changing world.

The three courses offered in our teacher training and educational programmes are: Early Childhood Education and Care, Pre-primary Education and Primary Education.

Audiovisual Arts and Drama at the RITCS | School of Arts

The Royal Institute for Theater, Cinema, and Sound - School of Arts, in short RITCS, offers courses open for student mobility in the fields of Audio-visual and Dramatic Arts. Teaching at RITCS is organised around several specialisation areas which are taught from the Bachelor level to the Master level. With our international exchanges, the multicultural actors and the Brussels metropolis as a cherry on the cake, our training generates a window onto the world.

The language of instruction is Dutch, with facilities in English for international students. As the groups are quite small, you can easily catch up and fellow students are there to help you. Incoming students take part in Dutch courses so it is strongly advised to follow the Survival Dutch course or take Dutch classes.

Within the **Audiovisual Arts** branch, an exchange is possible in:

- Animated Film
- Radio
- Directing
- Writing
- Production
- Cinematography
- Sound design
- Editing

ehb.be/en/programmes/audiovisual-and-dramatic-arts

And within the **Drama** branch, an exchange is possible within:

- Directing
- Acting
- Stage management
- Performing Arts Technology/Techniques and Production Management

If you want to apply as an Erasmus student at RITCS, please do so online and be sure to send your CV and a portfolio of your work. We will have a personal interview with you online in order to get to know each other and to screen your motivation, CV etc. Upon acceptance of your application, we will guide you to create an adapted study programme.

Music and Musical

The Koninklijk Conservatorium Brussel (KCB) is a School of Arts of EhB. At the KCB we focus on the dialogue between the past and the present. An international team of renowned professors is there to coach you and develop your skills so that you can discover what you are truly capable of.

Exchange is possible within:

- the Instrument/voice branch with its unique Historical Instruments (HIPP) department
- the field of composer or conductor
- the programme in Jazz and/or composition and arrangement.
- the Musical programme

The programme is individualized and dependent on the number of places available. We therefore ask all students interested in becoming an Erasmus student at the Koninklijk Conservatorium Brussel (Royal Conservatory of Brussels) to apply electronically and simultaneously send us the AEC application form as well as a cd or DVD with a demo or a portfolio of your compositions (for students in composition and writing).

More detailed information:

ehb.be/en/programmes/music

ehb.be/en/programmes/musical

KCB

How to apply?

Erasmus+ Study

1. Preliminary steps at your home institution

- Your home institution needs to have an inter-institutional agreement with Erasmus Brussels University of Applied Sciences and Arts. Check if this is the case by consulting with your home institution's International Office.
- Follow the application process at your home institution to be nominated as a participant in the Erasmus+ programme.
- A B2 CEFR reference level in English is required. Check with your home institution and verify that you have reached this level.

2. Get nominated by your home institution

- Once you pass the application process at your home institution, they will officially nominate you by notifying us.
- The deadline for them to do so is April 15th for exchanges in the Fall Semester and October 30th for exchanges in the Spring Semester

Students applying for The Koninklijk Conservatorium Brussel (KCB) or The Royal Institute for Theater, Cinema, and Sound (RITCS) should also take into consideration the additional application procedure at these two Schools of Arts. Please consult their website or contact them directly for more information.

3. Registering with EhB – Mobility-Online platform

- Once your home institution has officially nominated you, we will send you the required information to register electronically through the Mobility-Online platform.

4. Completing the Learning Agreement in Mobility-Online

- Contact the academic Erasmus coordinator of your field of study (contact details are on the programme webpage) to define your academic exchange programme.

- Write the details down in a Learning Agreement:
 - If your home institution works with an Online Learning Agreement (OLA), you will have to fill out your courses on your home institution's platform. Your OLA will be sent to us automatically after they have approved it.
 - If your institution does not work with an Online Learning Agreement, you can upload your Learning Agreement as a PDF document on Mobility-Online.
 - The deadline for either type of Learning Agreement is one month before the start of your exchange.

More information:

ehb.be/en/study/applying
ehb.be/en/programmes

Erasmus+ Traineeship

1. Preliminary steps at your home institution

- Follow the application process at your home institution to be nominated as a participant in the Erasmus+ programme.

2. Get nominated by your home institution

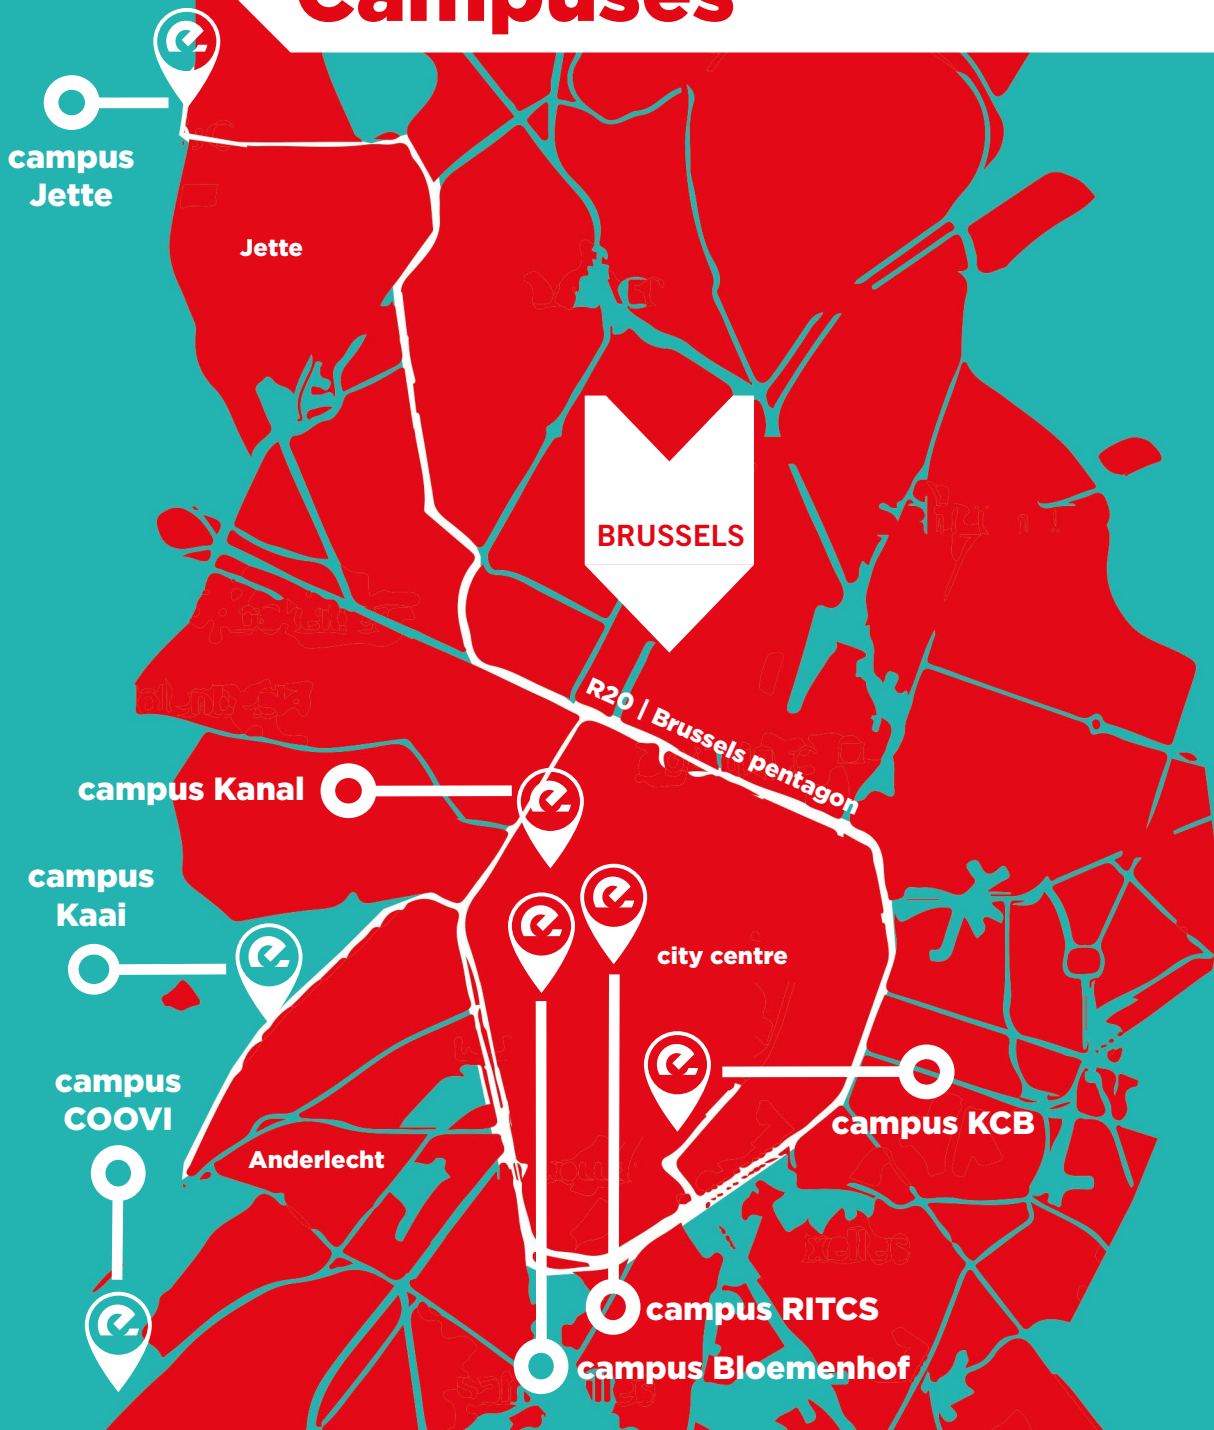

- Once you pass the application process at your home institution, they will officially nominate you by notifying us.
- The deadline for them to do so is April 15th for exchanges in the Fall Semester and October 30th for exchanges in the Spring Semester

3. Registering with EhB – Mobility-Online platform

- Once your home institution has officially nominated you, we will send you the required information to register electronically through the Mobility Online platform.
