

University degree

You are just at the beginning of your career, very good! We also have offers for schoolchildren, students and prospective PhD candidates.

Professional experience

Professional experience is extremely important. A minimum of five years is required. Special features such as crediting part-time work are possible.

Doctorate

In case you don't have a doctorate yet there are various ways to earn one later in your career instead of directly after the first university degree.

Pedagogical suitability

A UAS professorship includes a lot of teaching which is why skills in knowledge transfer are of particular importance. A number of offers support interested candidates to acquire such skills.
